

Past *Forward*

A time in the not so distant past, when life before the pandemic from COVID-19 turned our world upside down. A giant blanket settled on and around the whole world giving us time to contemplate our lives and for some, only can reminisce about our family and friends.

Art is created to touch our lives, to make us think, or even to entertain. These artworks will allow a little escapism that is welcome now. Togetherness, playfulness, laughter, and social well-being, we all long for those times. As we move forward, we will enjoy life once again, however modified.
